Athens, 06/10/2021

**Cosmos Business Systems** signed a contract for the project **Development of an Integrated Information System for the European Fund Unit of the Ministry of Interior of Cyprus.**

The object of the project includes:

- The development, installation and maintenance of an Integrated Information System to support and automate the business processes that constitute the management framework of the Internal Affairs Funds.
- Supply, setup, interconnection, installation and maintenance of equipment and ready-made software (system / infrastructure / applications) required for the operation of the new Information System.
- Transfer of existing digital data and selective digitization and archiving of documents (in printed form) in the database of the new System.
- Training of the human resources that are expected to be the future users and administrators of the new System.
- Support for the transition of the Contracting Authority to the new Working System, through the Pilot and Productive Operation of the new System as well as the efficient transfer of know-how to its staff.

For this specific contract, the **President and CEO of Cosmos Business Systems Mr.D.Daphnis** stated:

"It is a special honor for us to undertake such an important project of the Republic of Cyprus, and at the same time a challenge. Cosmos together with its subsidiaries has a continuous and strong presence in

Cyprus since 1995, which in combination with its experience in complex IT and communications projects in Greece and Cyprus, makes it a reliable and key solutions provider for the country. We are confident that the project will be crowned with success and the result will confirm the expectation of the European Fund Unit of the Ministry of Interior of Cyprus. "

The project is expected to be delivered within 2022 and its value amounts to **€477.793,00** (plus VAT).
